

## The Witnessing Church

We show what we are like, our personality, through communication. We communicate with people using:

- S \_\_\_\_\_
- B \_\_\_\_\_

**Our personality (who we are)**

- A b \_\_\_\_\_ (v.4)

What purpose(s) is God building us for?

Can this be a witness to people around us?

- A p \_\_\_\_\_ (v.5&9)

What did priests do in the Old Testament? How were they special?

Can this be a witness to people around us?

- An \_\_\_\_\_ (v.9)

How should a nation behave together?

Can this be a witness to people around us?

Overall we are to be h\_\_\_\_\_. What does this mean?

Our speech (what we say)

When something special happens to us what do we usually do?

Who is close to you that you could tell about God?

Do we always find it easy to speak about our faith? What has God given to help us?

Our body language (what we do)

What does 'abstain from sinful desires' mean?

What can we do to live good lives among the people around us?

*To think about:*

Is our witness complete if any of these happen?

- We are not different ('new personalities') as Christians.
- We do not speak about Christ.
- We do not act/do things differently as Christians - live good lives with the people around us.
